OBJECTIVE

Dedicated and focused student looking to gain practical knowledge of the field of Computer Science through a summer internship. My strong time management skills and passion for computer science will allow me to maximize my benefit to [the company] within a 10-12-week time frame.

EDUCATION

University of California-Berkeley
Berkeley, CA (2019-Present)
Major: Computer Science
Relevant Coursework:

- Structure and Interpretation of Computer Programs (Fall 2019)
- Data Structures (Spring 2020)
- Designing Information Devices and Systems I (Spring 2020)

KEY SKILLS

Python
Java
HTML5 / CSS
Microsoft Office
JavaScript (*familiar*)
Adobe Photoshop (*familiar*)

EXPERIENCE

August 2018 – June 2019
Programming Club • Founder & President • Clear Lake High School
Started after-school club at high school to introduce computer science principles to students and improve skills for competition.

September 2019 - Present
CS Tutor • SendForC Berkeley
Traveled to Summit K2 High School in El Cerrito, CA to teach basic CS skills to students. Met weekly for 2-hour mentoring and teaching sessions

PROJECTS

Overwatch League Discord Bot
Coded a bot (node.js) for IM service Discord that could respond to basic user inputs to assign roles within an IM server and pull professional player statistics from a public API
